### **Detailed Office Action**

#### ***Status of the Claims***

Acknowledgement is hereby made of receipt and entry of the communication filed 09 April, 2007. New claims 9 and 10 accompanied the response. Claims 3-5, 9, and 10 are pending in the instant application. Applicant is advised that newly submitted claims 9 and 10 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the newly presented claims are directed toward antibodies which are structurally and functionally unrelated to the claimed cyclic peptides, as well as, pharmaceutical compositions comprising the cyclic peptide. The pharmaceutical compositions consist of a different formulation as compared to the cyclic peptide and constitute a different invention. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 9 and 10 are withdrawn from further consideration as being directed towards a nonelected invention (refer to 37 C.F.R. § 1.142(b) and M.P.E.P. § 821.03).

#### ***35 U.S.C. § 112, First Paragraph***

The following is a quotation of the first paragraph of 35 U.S.C. § 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to

make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

#### *Written Description*

The previous rejection of claims 4 and 5 under 35 U.S.C. § 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention, is hereby withdrawn in response to applicant's arguments.

#### *Ex parte Quayle*

This application is in condition for allowance except for the following formal matters: claims 9 and 10 stand withdrawn. Appropriate action is required. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 U.S.P.Q. 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application has been granted special status under the accelerated examination program, a shortened statutory period for reply to this action is set to expire **ONE (1) MONTH or THIRTY (30) DAYS**, whichever is longer, from the mailing date of this letter. **NO** extensions of time under 37 C.F.R. § 1.136(a) will be permitted. The objective of the accelerated examination program is to complete the examination of an application within twelve months from the filing date of the application. Any reply must be filed electronically via EFS-Web so that the papers will be expeditiously processed and considered. If the reply is not filed electronically via EFS-Web, the final disposition of the application may occur later than twelve months from the filing of the application.
